

# CHIP ENERGY'S FLASH BOILER

## Applications:

Home Heating  
Shop Heating  
Hot Water Heating  
Crop Drying  
Pool Heating  
Process Heat

**Flash Boiler**

The Flash Boiler captures the heat of the Gasifier.

*As a crucial part of the Biomass Furnace, the Flash Boiler efficiently harnesses the heat and energy produced by the Gasifier. It is easy to install and to use. With the power of this unit, heating any area is a snap!*

Chip Energy Biomass Furnace efficiently burn countless forms of fuel including:

Wood Pellets	Cherry Pits
Corn	Paper Shreds
Wood Chips	Cardboard
Rice Husks	Mesquite
Switch Grass	Peanut Shells
Coconut Husks	Miscanthus
Sawdust	Sunflower

**CHIP ENERGY**  
CLEAN RENEWABLE FUEL
